Bachelor of Science in Information Technology <i>STI College Balagtas, Bulacan</i> Graduated Cum Laude	2024
STEM — Science, Technology, Engineering, Mathematics <i>Marikina Polytechnic College, Marikina</i>	2020

TECHNICAL SKILLS

Languages & Frameworks: PHP, JavaScript, Laravel, Vue.js, React, HTML, CSS, Bootstrap, Tailwind CSS, Bulma, Buefy

Backend, Databases & Tools: REST APIs, MySQL, Git, GitHub, GitLab, Gitea, Postman

PROFESSIONAL EXPERIENCE

Junior System Developer <i>Wilcon Depot Inc., Libis, Quezon City</i>	August 2024 – Present
--	-----------------------

- Developed and maintained full-stack web applications using Laravel, Vue, and MySQL.
- Built Auto Incentives and Provincial Billing Systems with approval workflows, CRUD functionalities, and automated email notifications and logging.
- Engineered a Coupon Code Management System including workflow approvals, PDF batch generation, API integrations for QR scanning and synchronization, and status reversal and activity tracking features.
- Designed and implemented a Tenant Management System with interactive unit mapping, auto-generated contracts, and payment monitoring and approval workflows.
- Built a Count Schedule and Approval System for inventory count scheduling per branch, featuring: auto-population of uploaded item details via Infor API integration, bulk schedule automation across multiple stores through a single Excel upload, multi-level approval workflows, schedule extension functionality for approved counts, and comprehensive transaction logging.
- Improved system efficiency through automation and structured data handling.

Full Stack Developer Intern <i>Nexbridge Technologies Inc., Malolos, Bulacan</i>	February 2024 – May 2024
--	--------------------------

- Developed admin panel components for a Loan Management System including navigation tabs, dynamic data tables, CRUD operations across multiple modules, and OTP authentication functionality.
- Designed and built authentication pages (login/register) for the Booque Monitoring System.
- Created responsive UI and optimized database interactions.
